PRODUCT DESCRIPTION

Our MIFARE Classic 1K RFID Silicone Wristbands combine comfort, durability, and reliable contactless technology, making them ideal for leisure centres, gyms, events, schools, and secure access applications.

Manufactured from high-quality silicone with a 65mm (medium) diameter, they offer a comfortable, flexible fit for everyday wear. Powered by NXP MIFARE Classic EV1 technology, these wristbands provide fast and secure RFID authentication for access control, cashless payments, and identification systems.

Available in a wide range of vibrant colours, the wristbands can also be custom printed with your logo, text, or branding, helping to reinforce your identity while creating a professional and engaging experience.
